

Overview of maximum fee payable per game for each league 2018/19 season

This table shows an overview of the maximum payable for the officials per game, for each league. Clearly the IHUK Referee Section have a commitment to not have clubs paying the maximum mileage fees for officials for every game, however the maximum mileage limits are in place so that where needed the referee section can work to the maximum. Clubs should be prepared to have the maximum fee available on the night for the league they are running for each game.
